Dear Corporators, Customers, Employees, and Friends:

It has been an incredible year of positive change, dynamic growth, and exciting innovation.

Looking back, although the goals we set for ourselves were diverse and ambitious, we can never fully anticipate the exciting possibilities that may come with opportunity. With size comes the capacity to innovate and we did just that. As the year progressed, we prepared for our merger with Granite Bank and continued cultivating our existing business in Maine and New Hampshire. We expanded our unique Buoy Local program and increased awareness of the positive impact it has, and will have, on local economies. We raised our internal minimum wage for the fourth time in 36 months, continuing our commitment to the bank’s employees and helping make their lives a little easier.

Our new campus rising along Bangor’s waterfront acknowledges our heritage and speaks to our future in the most visible way. With Bangor as our home for the last 166 years, our vision is to create a campus that attracts and retains talented employees with a state-of-the-art facility that fosters collaboration and creativity, mixed with a sense of fun.

The future of Bangor Savings Bank is bright. We will continue to set a high bar in our commitment to nearly 210,000 customers. We will strive to continually provide outstanding execution of our values with our employees, now more than 900 strong. And we will continue to give generously of our time, talent, and treasure to support the communities we serve.

Our strength lies in your continued advocacy and support, along with our commitment to the three little words —You Matter More.

Thank you.

Sincerely,

Dr. Robert A. Strong, CFA
Chair of the Board

Robert S. Montgomery-Rice
President and Chief Executive Officer
Our future looks bright:
Bob Montgomery-Rice and Bob Strong discussing the new Bangor campus and future growth.

Bangor waterfront, March 2018.
Why Local Matters to Bangor Savings Bank.
The big picture is bigger than all of us.

What is local? Local is highly personal. It relates to you and your family alone. It is your neighborhood, your town, your region, your state.

We believe in whatever local means to you. There is a connectedness in local success that brings value to individuals.

We are committed to ensuring that our customers and employees are valued at all levels of interaction, and that they feel confident that we have their best interests top of mind. We strive to make our customers’ and employees’ lives easier and help them succeed.

And to do so, we cannot ignore the communities we serve. These communities provide the structure and security that create positive local outcomes.

We base our approach on these critical pillars that receive our investment in people, time, and dollars:

**Employees.** Our workforce is our key asset. Through training and investment, we have created a dedicated, knowledgeable team that approaches customer needs by listening and understanding what is important. That takes work. We must continue to nurture an internal culture of excellence for each of our employees, and ensure that it shows in every interaction. We strive to do what is right for our employees so that they, in turn, will do what is right for customers — not just today, but well into the future.

**Customers.** The mission of Bangor Savings Bank has never wavered. As we build capacity and extend our services, we will continue to look back to our founders. Our mission was — and remains — to improve the lives of people. Originally, these were forest workers who needed housing. Today, we are the largest mortgage lender in Maine. We invest in businesses of all sizes; because, startup or legacy, small or large, we need businesses to compete and succeed, to provide jobs, to innovate, and grow. We look forward to serving the communities of Northern New England with personal service and the heart of a local bank.
Community. Our communities give us meaning and support. Homes and neighborhoods, and jobs and activities provide stability. But that alone does not create community. Through our community-voting program Community Matters More, foundation grant-making, and the bank’s corporate giving, we invest in local communities to provide assistance to those in need. We proudly support workforce and economic development, music, theater and the arts, local animal shelters, food pantries, public safety groups, and many more, because one aspect of feeling safe and secure is knowing that your own community has the resources and capacity to respond to local needs.
Local Business.

The foundation of our success is your success.

There is nothing more important to the health and welfare of our communities than the jobs and opportunities created by local businesses.

For the seventh consecutive year, Bangor Savings Bank received the honor of being Maine’s top Small Business Administration lender.

Over the past year, Bangor Savings Bank lent $361 million in new business loans.

Providing capital for business growth and expansion, in good times and times of challenge, makes Bangor Savings Bank more than a lender, but rather a partner.

The pizza is only part of the fun: It’s the camaraderie and community that keeps local patrons coming back.

Working lunch: Owner Jeff Perkins (right) talks shop with his Bangor Savings Bank commercial loan officer, Robert Nadeau.
committed to the success of our customers and communities. Bangor Savings Bank has developed a suite of business products and services tailored to help small businesses gain traction and allow larger businesses to become more efficient.

Merchant Card Services offers innovative products and solutions that allow local businesses to prosper. Bangor Savings Bank is the only Maine-based agency bank that both sells and services its products, providing the security of representation with an understanding of the local needs and goals within the markets we serve.

Our Treasury and Payment Services Team serves as a trusted advisor to local businesses and municipalities, providing the same security and efficiency as national options, with an understanding of local market conditions that create specific advantages for our customers.

Bangor Payroll simplifies the services around employee compensation, and offers significant human resources management options. Our team of local experts provide peace of mind to nearly 3,500 businesses of all sizes, so they can focus on their business.

In recent years, Bangor Savings Bank has expanded its physical geography throughout Maine, opening new branches as a visible commitment to the businesses that support the workforce of Maine’s communities. Now, we will look to New Hampshire to provide an even larger base of business support, bringing our innovative practices and learning about the needs of the Granite State’s local businesses, workforce, and community.
The why behind Buoy Local is easy to understand.

According to a 2017 U.S. Small Business Administration (SBA) report, small businesses represented 99.7 percent of all employers, accounted for 61.8 percent of net new jobs, and paid 41.1 percent of the total United States private sector payroll.

Economic studies show that for every $100 spent at a local business, roughly $68 stays local compared to just $43 at a large business. Local business is a good investment.

Buoy Local provides a mechanism that supports local businesses and local buyers, rewarding each for their loyalty and helping the local business market grow — connecting commerce and community.

Buoy Local started in Portland, Maine. It was a smart idea. After Bangor Savings Bank acquired Buoy Local, we recognized that this model required significant investment to move beyond a “gift card” into a modern tool intended to help local businesses compete against their national and international competitors.
Over the past year, we have guided Buoy Local through the initial phases of execution, learning, modifying, and enhancing. The program, which now includes nearly 400 Maine-based businesses, has a new app that allows local merchants to push special offers\(^1\) and discounts to Buoy Local App\(^2\) users.

What do we know so far? Buoy Local is helping local merchants succeed by increasing sales and driving loyalty among their customers. So often, technology separates the customer from the retailer. Buoy Local is bringing customers and retailers together on a local basis, to support the local workforce and enhance local communities.

What’s next? We are expanding. Look for Buoy Local in your community soon.

\(^1\)This optional offer is not a MetaBank\(^®\) product or service, nor does MetaBank\(^®\) endorse this offer. E-Sign consent is required.

\(^2\)Messaging and data rates may apply. The Buoy Local Card is issued by MetaBank\(^®,\) Member FDIC.
Our earliest location was in the commercial heart of Bangor, then a fast-growing, rough-and-tumble town of 14,000, booming with the timber and lumber trade. For over 166 years, Bangor has been our hometown. Continuing our investment in the downtown area and providing our employees with the space and environment that enhances their ability to do their jobs is important to us. The building of our new home will help us meet those objectives.

Rising along the banks of the Penobscot River, Founders Place sits on 4.1 acres in the heart of Bangor’s waterfront. With two buildings, 24 and 11 Hamlin Way, honoring the Bank’s founder Elijah Hamlin, the campus will bring our headquarters and operations together. With more than 150,000 square feet of space, the campus will soon be home to more than 400 Bangor-based employees; and with space for up to 500 employees, Founders Place which includes a 400-car parking garage, has room for future growth.

With an on-site fitness center as well as walking and bike trails, the campus will enhance and complement the bank’s wellness program and quality of work life for employees.

Energy efficiency is built into our plans, with high-efficiency glazing and insulation, as well as extensive use of natural light and highly efficient lighting and HVAC systems. The parking garage includes a rooftop solar panel array that will provide enough electricity to supply nearly 90% of the campus’ HVAC needs.

Part of a long-term plan to improve operational efficiency, Founders Place also makes an important statement: No matter where our business growth takes us, Bangor is home. We are here to stay.

You learn something new every day: Bob Montgomery-Rice and Project Manager Nick Barboza talk air conditioning duct placements and football.
All along the waterfront: Cianbro constructing the new 11 Hamlin Way building that will provide hundreds of employees an enhanced working space and environment.
Expanding Local.
When local means something bigger, something more.

Bangor Savings Bank has served the people of central Maine since 1852. Founded at the height of the lumber boom to provide Bangor’s working poor a safe place to save their hard-earned dollars, Bangor Savings Bank has helped better the lives of many, including the state’s famous river drivers who “rode the logs” down the Penobscot River, steering and clearing entanglements.

Colebrook, New Hampshire-based Granite Bank was founded 129 years ago in the high forest of New Hampshire’s North Country. Once the agricultural and lumbering hub of the North Country, the hard-working community along the Connecticut River was a major producer of lumber, wool, and dairy throughout the 19th century. Colebrook now serves as the business, banking, and professional center for a large area of New Hampshire’s North Country and Vermont’s Northeast Kingdom.

Our histories are distinct and remarkably similar.

As Bangor Savings Bank looked to increase its presence, giving us the size and resources to provide more resources for our customers, we discovered Granite Bank, a bank that shared our values and commitment to developing real relationships with customers to make lives better.

Our merger creates a new “local.” With four new Bangor Savings Bank locations in New Hampshire, we look forward to supporting the communities of Colebrook, Concord, Portsmouth, and Amherst.
Beaver Brook Falls - Colebrook, NH:
The Falls are one of the several iconic landmarks of the Great North Woods.
Wealth Management services are more critical than ever, for customers of every age and income.

Appropriate at any stage of life, the reason a client seeks wealth management services are as unique as the individual. Maybe it’s a business that needs help preserving, managing its growth, or seizing opportunities. Sometimes a triggering event occurs—a will, an inheritance, a health scare, or some other life event. Regardless of how it begins, a client’s relationship with the Bangor Savings Bank Wealth Management team is always built on a foundation of trust.

Our team members are powerful advocates. Always available by phone or in person, they develop strategies to help you use investments as a tool to create a better life for you and your family for generations to come. Like everything we do, we have your best interests in mind. You really do matter more.

Planning Local.
Providing for today and for the generations to come.

It’s been a fun ride:
Ralph Leonard started Central Equipment Company in 1959.

In good hands:
Son Kent Leonard and Son-in-law Fred Reichel keep the business running.
Securing the future for generations to come: Ralph and his sons work closely with Bangor Savings Bank to ensure their businesses remain successful.
Without affordable housing, communities cannot prosper. Bangor Savings Bank takes our commitment to providing mortgage services seriously, as it weaves a pattern of prosperity throughout the areas we serve. Today, we are the largest mortgage lender in Maine, and stand as the number one lender to first-time home buyers through MaineHousing for the 10th year in a row.

Bangor Savings Bank is committed to providing guidance and support in an ever-changing and highly competitive marketplace. It is our belief that no level of convenience can supplant the level of expertise our mortgage lenders provide. In an environment of digital and non-bank competition, customers will not find the advice, security, opportunities, and service that the mortgage lenders at Bangor Savings Bank bring to customers engaged in the process of buying a home.

By offering a wide range of mortgage products online and with local offices throughout Maine and New Hampshire, Bangor Savings Bank has a pulse on the communities we serve, and knows how to uncover opportunities in each market.

Finding the perfect home can be tricky, but with the Bangor Savings Bank team, finding the right mortgage is easy.
Home sweet home:
Vice President and Mortgage Loan Officer Liz Monaghan worked closely with Kevin and Amy to finance their new home.
Investing Local.

Investing in communities is an investment in all of us.

“It is our responsibility to invest in the communities we serve, not just because we can, but because it is the right thing to do. And when we do so, we improve the quality of the communities in ways that are impossible to measure, but that we see and feel.”

Bob Montgomery-Rice

Each community we serve has unique needs. Bangor Savings Bank and the Bangor Savings Bank Foundation have created programs that provide the funding necessary to help address a wide range of needs across our footprint.

- **Community Matters More.** Through our innovative community voting program, customers and non-customers alike direct donations to the local organizations that matter most to them. Each year, Community Matters More proudly awards over $100,000 to 45 nonprofit organizations through the Bangor Savings Bank Foundation.

- **Peanut Butter & Jelly Drive.** Food security is one of Maine’s leading concerns. Each year, Bangor Savings Bank collects PB&J to help families suffering from food insecurity. Peanut butter is rich in protein, yet one of the most expensive products for a food bank to acquire in bulk. Last year, the bank collected more than 12,000 jars of peanut butter and jelly for distribution to local food pantries.

- **Foundation Grant Making.** The Bangor Savings Bank Foundation provides nearly $1 million annually in grants to nonprofits within the Foundation’s areas of focus throughout our communities.

- **Corporate Giving.** Corporate Giving allows us to support nonprofits in our communities through direct donations and sponsorships.

- **Community Development Banking.** The Community Development Program at Bangor Savings Bank illustrates our commitment to the communities we serve as well as our “You Matter More” promise. We approach community development through the execution of a purposeful and focused annual plan dedicated to fostering healthy communities, sustained economic growth, and financial mobility for our citizens. We work collaboratively with the private and public sectors to identify and address needs, provide comprehensive and innovative financial solutions, and attract and deploy capital for community investment. Our work aligns with the priorities of the Community Reinvestment Act—providing lending, financial services, and financial investment to those most in need.
**It’s the right thing to do:**
Ali Hussein volunteers his time sorting food boxes at Good Shepherd Food Bank to help families in need.

**Commitment:**
Floor manager John Russell is the longest tenured employee at Good Shepherd Food Bank with over 20 years of service.

**Healthy matters:**
Fresh produce makes its journey to those in need.

**Making a difference:**
Sisters Connie Madura and Annie Bowman arrive at the Good Shepherd Food Bank once a week to pick up food for the Naples United Methodist Food Pantry.
Financial Performance and Growth

For the fiscal year ending March 31, 2018, the Company earned net income of $23.91 million, down $1.04 million, or 4.17%, from the prior year. Excluding the impact of tax reform, a $1.00 million one-time contribution to the Bangor Savings Bank Foundation, and an additional 1% discretionary contribution to employees’ retirement plans, net income would have been $26.96 million, up $2.01 million, or 8.06%. Due to the strength of our core business, the Company delivered a strong financial performance against the backdrop of regulatory changes and rapidly evolving customer preferences, opening more than 32,000 new core deposit accounts, including nearly 3,800 new business accounts.

Total loan production during the year was $895.98 million. Over the past five years, the Company originated $3.90 billion in cumulative total loan production despite the economy’s impact on loan demand and on potential borrowers’ credit. Net loans on the balance sheet were $2.65 billion at fiscal year-end, a 8.59% increase.

Total residential mortgage loan production was $337.65 million, and commercial and small business loans outstanding increased by $142.65 million, or 11.48%.

The Company’s assets grew to $3.80 billion, an increase of 3.64% compared to one year ago. Customer deposits and repurchase agreements grew by $296.55 million, or 10.13%, totaling $3.22 billion at year-end. Off the balance sheet, assets in the Wealth Management Group grew to $2.87 billion at year-end. Non-interest income for the year was up 9.05%, to $53.08 million, driven by double-digit growth in card services, mortgage services, and payroll services.

Notably, at year-end, nearly 3,500 business clients used the Company’s payroll services and 3,500 used merchant card processing services.

The Company continued to focus on maintaining sound credit quality while working proactively with our noncurrent borrowers. Net charge-offs for the year were just 0.03%, and at year-end, nonperforming loans were 0.26% of the loan portfolio. This figure remains notably favorable relative to peer banks: as of March 31, 2018, Maine peer banks had nonperforming loans averaging 0.77% of total loans, and national peer banks averaged nonperforming loans of 0.69%.

Capital levels continued to be strong as total capital grew by $16.84 million, or 4.39%, to $400.61 million.

The Company continues to be categorized as well-capitalized by our regulators, and total capital in excess of the level required to be well-capitalized (relative to risk-weighted assets) increased 9.64% during the year to $147.91 million.

With a sound and growing balance sheet, strong loan production, and healthy core business operations and earnings, the Company remains well-positioned for continued investments in customer experience that will drive sustained profitability and growth.
